

New Greenfix Covamat Fresh

New Greenfix Covamat Fresh, pre-seeded erosion control matting from 100% degradable fibres, includes 5mm soil layer, fertilizer, micro-organism (*Bacillus subtilis*), UV degradable pp netting top and bottom for surface reinforcement 1200g/sqm

The addition of the soil layer has the added benefit of improving germination time, greater insulation for the seed and contact with the underlying soil. The blanket is supplied in rolls 2.4m x 15m or 1.2m x 20m for ease of handling and with four standard seed mixes to cover the majority of applications.

Available in three combinations for a variety of applications:

- **Covamat Fresh type 1** - 100% straw; for slopes upto 25 degrees, degradability 12- 18 months
- **Covamat Fresh type 2** - 50% coir / 50% straw, for slopes upto 35 degrees, degradability 18- 24 months
- **Covamat Fresh type 3** - 100% coir, for slopes 45 degrees or more, degradability 36 months

Seeded mat example

1. Established grass sward
2. Mat matrix seeded during manufacture
3. Seed retaining paper
- 4a. 5mm soil layer
4. Natural fibre matrix
5. Sandwiching polypropylene or jute
6. Vulnerable soil
7. Protected soil
